

AMENDED

APPLICATION FOR PERMIT

Serial No. 6960

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office AUG 14 1923
 Returned to applicant for correction AUG 23 1923
 Corrected application filed OCT 17 1923

The undersigned Bank of Nevada Savings & Trust Company
Name of applicant
 of Reno, County of Washoe,
 State of Nevada, hereby make application for
 permission to appropriate the public waters of the State of Nevada, as
 hereinafter stated. (If applicant is a corporation, give date and place
 of incorporation.)

1. The source of the proposed appropriation is Dry Valley Cfeek,
Name of stream, lake, or other source
Washoe County, Nevada.

2. The amount of water applied for is 960 acre feet or / 2.4
One-second-foot equals 40 miners' inches

3. The water to be used for Irrigation and domestic purposes
Irrigation, power, mining, manufacturing, domestic, or other use

4. The water is to be diverted from its source at the following point:
In the SW¹ of the SE¹, Sec. 5, T. 24 N., R. 19 E., M. D. B. & M.
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section-corner. If on unsurveyed land, it should be so stated.

APPLICATION TO CHANGE THE PLACE OF USE OF WATER. SEE SUPPLEMENTAL SHEET

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

(a) Number of acres to be irrigated is _____
 (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it should

be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

(c) Irrigation will begin about _____ and end about _____
Month, of each year.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

(d) Power to be developed is _____ horsepower.
 (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section-corner.

(f) Point of return of water to stream _____
Describe in same manner as point of diversion.

(g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works
6. Estimated time required to construct works
7. Remarks

For use of applicant

, Applicant.

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed cubic feet per second.

Actual construction work shall begin on or before

Proof of commencement of work shall be filed before

Work must be prosecuted with reasonable diligence and be completed on or before

Proof of completion of work shall be filed before

Application of water to beneficial use shall be made on or before

Proof of the application of water to beneficial use must be filed with State Engineer on or before

WITNESS MY HAND AND SEAL this day
of

State Engineer.

AMENDED

APPLICATION FOR PERMIT

SERIAL NO. 6960

To Change the Place of Use of Public Waters of the State
of Nevada, Heretofore Appropriated by Applicant.

Date of first receipt and filing in State Engineer's office AUG 14 1923
Returned to applicant for correction AUG 23 1923
Corrected application filed OCT 17 1923

The undersigned, BANK OF NEVADA SAVINGS & TRUST COMPANY, of Reno, County of Washoe, State of Nevada, hereby makes application to change the place of use of waters heretofore appropriated and beneficially used as hereinafter shown.

1. The source of the water supply proposed to be changed is Dry Valley Creek, Washoe County, Nevada.
2. The quantity of water desired to be changed is 960 acre feet or 2.4 cubic feet per second.
3. The water is to be used for irrigation and domestic purposes.
4. The water is to be diverted from its source at the following point: In the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$, Section 5, T. 24 N., R. 19 E., M. D. B. & M.
5. The existing point of diversion under the former appropriation is as follows: In the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$, Section 5, T. 24 N., R. 19 E., M. D. B. & M.
6. The water, herewith desired to be changed, has been beneficially and continuously used upon the following described lands: E $\frac{1}{2}$ of NE $\frac{1}{4}$, Section 12, T. 24 N., R. 18 E., and NW $\frac{1}{4}$, Section 7, T. 24 N., R. 19 E., M. D. B. & M.
7. Number of acres heretofore irrigated is 240 acres.
8. Number of acres proposed to be irrigated is 240 acres.
9. Description of the land proposed to be irrigated is as follows:
(Storage Application)
10. Description of proposed works: The water will be diverted by means of a small earth and rock dam into a ditch which will convey the water to a reservoir where it will be stored and thereafter conveyed to the lands to be irrigated by means of stream bed of Dry Creek with ditches and laterals, this reservoir being identical to that described in the application of Neill H. West to appropriate public waters of the State of Nevada, being Serial Number 4420, and upon which a permit of the State Engineer was issued November 19, 1917, and which said application and permit was thereafter assigned and transferred to applicant.
11. Estimated cost of proposed works is: No cost, all necessary works being now completed and in use.
12. Estimated time required to construct works is: No time required, all necessary works being completed and in use.
13. Irrigation will begin about April 1st of each year and end about October 31st of each year.
14. The water has been used heretofore during the months of April, May, June, July, August, September and October of each year.
15. The above mentioned application of Neill H. West designates the land described under Paragraph 6 as the land to be served by said

appropriation. It has since been discovered that the land so described and to which this right is now appurtenant is inferior and unsuited to irrigation. It is applicant's immediate purpose to use the water in conjunction with water from other sources upon the following lands, pending the completion of the works described in application 6028, being an application heretofore filed by Pyramid Land and Stock Company in the office of the State Engineer, in the year 1920 and not yet acted upon by the said State Engineer; which application has since been assigned to this applicant.

The E $\frac{1}{2}$ of the SW $\frac{1}{4}$ the NW $\frac{1}{4}$ of SE $\frac{1}{4}$ and the S $\frac{1}{2}$ of the SE $\frac{1}{4}$ of Section 9; the N $\frac{1}{2}$ of the NE $\frac{1}{4}$ of Section 16; and the S $\frac{1}{2}$ of the NE $\frac{1}{4}$ and the N $\frac{1}{2}$ of the SE $\frac{1}{4}$ of Section 15, T. 24 N., R. 18 E., M. D. B. & M.

Upon the completion of said works the water embraced in the instant application to be applied on such other lands as shall seem suitable to applicant.

BANK OF NEVADA SAVINGS & TRUST COMPANY.

DENIAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby deny the same on the grounds that applicant, after due notice, failed to submit the statutory fee for the issuance of a permit thereunder.

WITNESS MY HAND AND SEAL this 14th day
of February, 1939

STATE ENGINEER
